

Victory Ad Hoc Meeting  
May 31, 2017

Thank you for the opportunity to serve on the Victory track, field and court renovation project AD Hoc committee.

I am looking forward to working with the committee to develop an updated design plan to present to the full town council in the near future.

I am committed to and hopeful that this design plan will meet both current and future needs and be comprehensive in scope.

It is imperative that this design plan will be functional, safe, environmentally sound, aesthetic pleasing, and maintenance friendly, while ensuring fiscal diligence.
